

2024 TOURNAMENT RULES

- Tournament Format is Texas Scramble
- Each team is made up of 4 golfers
- Minimum Handicap per team is 25
- 2 teams will start per hole
- The opposing teams at each hole will keep score for each other, to ensure fairness of play
- Each member of the team can only use their drive 4 times during the 18 holes. The exception to this is on par 3 holes, where any team member's drive may be used
- One drive is selected, and the other team members will move their ball to this point. All players then play the next shot from this spot
- The sequence is repeated for each shot until the hole is completed. This also applies to the putting green (no gimmies!)
- If a shot is being chosen from the rough or a bunker, the ball must be played first and then the other balls are dropped near that spot and played in turn
- When scoring, only the final score for each hole will be recorded under the person's name whose drive was utilized for that hole
- Total all scorecards at the close of the game, and hand in to designated volunteers immediately after the game.
